## TECHNICAL SERVICE BULLETIN

DEALER INFORMATION, TECHNICAL  
ADVICE AND PRODUCT INFORMATION  
CAN BE OBTAINED AT THIS NUMBER:

**1-800-648-8951**

NO. 196-001

**SUBJECT:** STARTER HOUSING FASTENING COMPONENTS

**AFFECTS:** ELECTRIC START TRIMMERS  
st725cea (UT20644R), z725ce (UT20616, UT20616A), z725cea (UT20644),  
z725se (UT20618, UT20618A), s825sev (UT20634, UT20634A)

Omitted from parts list, part number **19485A** are the fastening components used to attach the battery pack to the starter housing A07168. Listed below are the part number, description and quantity of these parts:

Part Number	Description	Quantity
06973	Screw (8-32X.875 T-15)	2
06974	Nut, Spanner (8-32)	2
84103-1	Washer, Flat (8)	2

We apologize in advance for any inconvenience.

Peter Knoell  
Product Service Manager

## TECHNICAL SERVICE BULLETIN

DEALER INFORMATION, TECHNICAL  
ADVICE AND PRODUCT INFORMATION  
CAN BE OBTAINED AT THIS NUMBER:

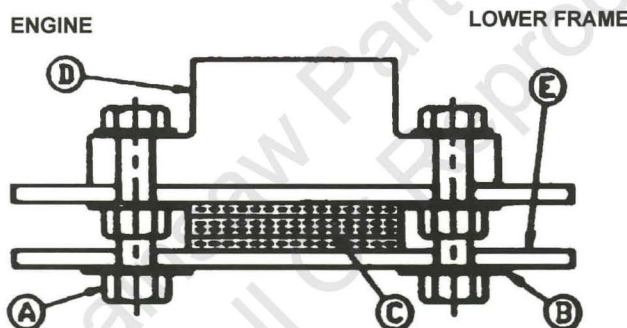

**1-800-648-8951**

NO. 196-002

**SUBJECT:** REMOVAL OF SHIPPING MATERIAL

**AFFECTS:** LR, LRI, AND CG SERIES GENERATORS

To prevent shifting during shipping, all generators, with large frames, have cardboard shipping blocks between the engine (D) and lower frame support (E). Holding the blocks (C) in place are two large washers (B) and two nuts (A) attached to the engine mounting bolts. Refer to the illustration below.

Remove and discard the shipping blocks, nuts and washers before servicing and starting the unit. **DO NOT REINSTALL THE WASHERS AND NUTS AFTER REMOVING THE CARDBOARD.**

Failure to remove the cardboard and packing fasteners will result in excess vibration that will cause damage to the generator end and will trip the GFCI (if equipped).

## TECHNICAL SERVICE BULLETIN

DEALER INFORMATION, TECHNICAL  
ADVICE AND PRODUCT INFORMATION  
CAN BE OBTAINED AT THIS NUMBER:

**1-800-648-8951**

NO. 196-003

**SUBJECT: MICROFICHE UPDATE**

**AFFECTS: ALL MODELS**

The first microfiche update for 1996 has been completed, and will be mailed out the first week in February. The new fiche will come with instructions on how to insert the new sheets in with your existing set. Some sheets are new and will be added to your set, others will replace sheets within the set. Make sure you discard any old sheets removed from the complete set, otherwise they will get mixed in with the new material causing confusion the next time you need to use them. Follow the instructions carefully.

A new addition this year is the **NUMERICAL PARTS PRICE LIST (CARD AA)**. Identified by the **Silver** (gray) stripe on the top.

Another addition this year; in the front of each section of fiche you will find a complete index, **(CARD A)**.

A complete Microfiche set from Homelite will allow you to look up parts, and check Technical Bulletins on current models as well as older models that may come into you for repair. A majority of the older hard copy books, you more than likely won't have on hand. This should save you time in looking up parts, and help you take care of your customers needs.

There are three different sections to the complete microfiche set, and they are identified by the colored stripe on the top, with contents as follows:

1) **WHITE STRIPE -----CONSTRUCTION EQUIPMENT**

<u>CARD</u>	<u>CONTENT</u>	<u>TYPE</u>	<u>DATE</u>

## TECHNICAL SERVICE BULLETIN

DEALER INFORMATION, TECHNICAL  
ADVICE AND PRODUCT INFORMATION  
CAN BE OBTAINED AT THIS NUMBER:

**1-800-648-8951**

NO. 196-004

**SUBJECT:** ELECTRIC START STRINGTRIMMER CUSTOMER LETTER

**AFFECTS:** MODELS z725ce, s825se, z725se

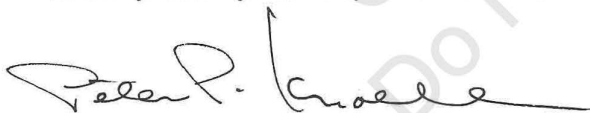

Attached is a copy of a letter being sent to 3,000 Electric Start String Trimmer customers directing them to Full Service Dealers for a product enhancement for their trimmers.

The customer will also receive a coupon for \$5.00 toward the purchase of any Homelite parts or accessories. Please honor this coupon.

Homelite will reimburse the dealer for the coupon through warranty. Use code **FV58**. You may include the job **FV58** on the same warranty claim as the product enhancement. Please attach the coupon to the claim for reimbursement and use only one coupon per claim.

Refer to Technical Service Bulletin 195-005 (included) for details on performing the product enhancement.

Thank you for your cooperation.

Peter P. Knoell  
Product Service Manager

Dated: 2/96

March, 1996

*Personalized Address here*

Dear ,

Thank you for purchasing a Homelite Electric Start String Trimmer. In an effort to ensure customer satisfaction, we have designed a product improvement for your trimmer (as illustrated on the enclosed decal). We are offering this improvement at no charge to you.

Please take this letter and decal along with your trimmer to your nearest Homelite Full Service Dealer (for your convenience, locations nearest you are listed below). As an added **thank you**, we are also enclosing a \$5.00 certificate which you can use to purchase any Homelite parts or accessories (such as trimmer line, or Exact Mix Oil) before April 15, 1996.

Please accept our apology for any inconvenience this may cause. However, we are confident this improvement will keep you *"cuttin' with the push of a button."*

If you should have any difficulties obtaining this service, please call us at 1-704-587-2888.

Sincerely,

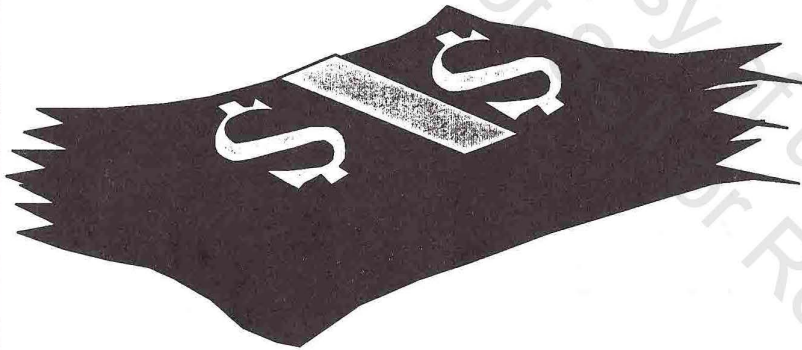

Lou Ann Taylor  
Marketing Manager  
Consumer Products

## TECHNICAL SERVICE BULLETIN

DEALER INFORMATION, TECHNICAL  
ADVICE AND PRODUCT INFORMATION  
CAN BE OBTAINED AT THIS NUMBER:

**1-800-648-8951**

NO. 196-005

**SUBJECT: GFCI INSTALLATION**

**AFFECTS: CG AND LRI GENERATORS**

 **CAUTION:** Before starting work, carefully read all of these instructions. As well as all of the instructions in the owner's manual.

 **WARNING:** Always make sure the unit is turned off before working on the circuit.

There are some minor physical differences between different manufacturer's GFCI receptacles, namely, the locations of the neutral and hot "LINE" connection screws. The locations of these screws are shown for the Bryant Electric receptacle in Figure 1 and for the Arrow Hart receptacle in Figure 2.

Carefully note which manufacturer's receptacle is currently mounted in your generator, and which manufacturer's receptacle is supplied as a replacement. Follow the wiring diagram which corresponds to the *replacement* receptacle only.

The power input wires must connect to the proper "LINE" screws, and where applicable, any additional protected receptacles must connect to the proper "LOAD" screws. When removing the old GFCI receptacle, note the orientation of the "LINE" and "LOAD" connections.

In all cases, the **white** (neutral) wires must connect to the correct **silver** screw, and the **black or red** (hot) wires must connect to the correct **brass** colored screw. The green (ground) wire always connects to the green screw.

 **WARNING:** Do not use the GFCI receptacle or any receptacles protected by the GFCI until it has been fully and successfully tested per the procedure specified below. Follow all of the safety instructions in the owner's manual, such as correct grounding procedures, when operating the unit.

## TEST PROCEDURE

- 1) If necessary, reset the GFCI by depressing the "RESET" button.
- 2) Start the generator per the instructions in the Owner's Manual.
- 3) Depress the "TEST" button. The "RESET" button should extend. If it does not extend, turn the generator off. Determine and correct the problem before re-applying power.
- 4) With the "RESET" button extended, plug a test lamp into the GFCI receptacle. If the lamp lights while the "RE-SET" button is extended, this indicates that the "LINE" and "LOAD" terminals have been wired in reverse. Turn the generator off. Check the wiring connections per the instructions above, and determine and correct the problem before re-applying power.
- 5) If the test lamp does not light up, depress the "RESET" button until a firm "click" is felt. When properly reset, the RESET" button should be flush with the face of the receptacle. The test lamp should now be on.
- 6) Depress the "TEST" button again. The test lamp should go off again.
- 7) On models with additional standard receptacles protected by the GFCI receptacle, move the test lamp to each of the protected receptacles. The test lamp should not light with the "RESET" button extended. If the test lamp lights, this indicates that the standard receptacle is is not protected by the GFCI receptacle. Turn the generator off. Check the wiring connections per the instructions above, and determine and correct the problem before re-applying power.

## **BULLETIN**

NO. H96A-006

**SUBJECT: WARRANTY RESPONSIBILITY**

**AFFECTS: ALL HOMELITE, INC PRODUCTS**

In order to provide our customers with products that meet or exceed their expectations, Homelite, Inc., devotes substantial resources to the development and testing of these products as well as the component parts and associated accessories. Frequently we are asked by dealers and users alike to provide opinions on non-standard parts and accessories. While we do some testing on non OEM components, we do not disseminate information obtained from these tests.

Our position regarding use of other than original equipment, parts and/or accessories, is that it may cause the product to fail prematurely or cause injury to the operator or bystanders. Should a failure or injury occur both the manufacturer of the item(s) and the dealer selling or installing them are responsible. For everyone's protection - yours, ours and most importantly, the personal safety of our customers, use only genuine OEM repair parts and accessories.

All authorized service dealers should be aware that only OEM Homelite parts may be used to perform repairs under warranty. Homelite, Inc. will not accept a warranty claim if the failure was caused by other than genuine Homelite parts or accessories.

We rely on our servicing dealer organization to administer this policy and thank you for enforcing it as stated.

Bill Borachok  
Mgr. Product Quality

## TECHNICAL SERVICE

1 - 8 0 0 - 4 3 8 - 9 4 7 5

# BULLETIN

NO. H96A-007

**SUBJECT:** LRI GENERATOR UPDATE

**AFFECTS:** UT-03777,-A~UT-03799~UT-03780~UT-03787,-A,-B~UT-03804,-A~UT-03788,-A~UT-03791,-A  
UT-03806~UT-03792~UT-03789,-A,-B~UT-03790,-A~UT-03778,-A~UT-03807~UT-03779

**Control Board:** For best results, clean the contacts on the **A06257** Control Board before installing. This will remove all residue and provide the best electrical contact.

**Homelite** uses one control board for both dual and single voltage units; be sure to remove the two jumpers (as shown in the schematic found in the parts list and owner's manual) for use in the LRI2500 generators. **Do not remove** jumpers for use in the LRI, LRIE 4400 and 5500. If jumpers are removed generator will produce 120 volts only. To determine whether a Control Board has failed use the **Homelite Generator Analyzer** Part number **08371**.

**Rotor:** If the field has to be flashed each time the generator is started, use the following test procedure:

1. Check for arcing at the brush holder
2. Check for residue on the slip rings; clean with a scrub pad; do not use sand paper.
3. Check Control Board for proper operation using the Homelite Generator Analyzer.
4. Replace the rotor if steps 1 through 3 do not correct the problem.

Note: for best results flash the field using the **Homelite Generator Field Flasher** P/N **A06978**.

**LRI, LRIE4400 surging:** If the generator is surging under load between 500 and 1000 watts and the problem cannot be traced to the engine carburetor, replace the idle control magnet and paddle using part number **A08841**. Instructions for installation are included with the kit.

**GFCI:** **Homelite** uses a unique vibration isolation system that allows the generator and engine to "float" in the roll cage. The control box is also isolated from vibration caused by the engine. The vibration isolation is nullified if the shipping block under the engine is not removed when preparing the unit for operation. If the shipping material is not removed the GFCI will trip due to vibration.

**Resistance Values:** Listed below are the resistance values in ohms ( $\Omega$ ) for the LRI series generators' rotors and stators as measured at 77°F (25°C) with a tolerance of  $\pm 6\%$

Model	Rotor Part No.	Resistance	Stator Part No.	Resistance
LRI2500	A02800AS	46.7	A06772S	Main: 0.478 Quad: 1.668
LRI(E)4400	A02799AS	67.0	A06771S	Main: 0.372 Quad: 1.428
LRI(E)5500	A02798AS	76.0	A06770S	Main: 0.298 Quad: 1.390

## BULLETIN

NO. H96A-010

**SUBJECT :** SHORT BLOCK, PISTON/ROD, CYLINDER PRICING

**AFFECTS:** ALL 25CC AND 30CC PRODUCTS

Homelite®, one of the world's largest producers of two cycle engine powered equipment, has reduced prices on 25cc and 30cc pistons, cylinders and short blocks. These reductions are reflective of increased production efficiencies. We have elected to pass these reduced costs on to our customers by lowering our prices.

We feel that this cost reduction will benefit our dealer network by allowing them to stock engine components without tying up significant inventory dollars. Dealers are encouraged to stock, short blocks, piston/rods and cylinders for 25cc and 30cc products in order to provide prompt repair service.

**Note: Lowering these prices and raising the maximum allowed for warranty repair will reduce the number of times you need to call for warranty authorization. Consult the Homelite Flat Rate Warranty Manual, effective date November 1996, for "Maximum Allowed for Repairs."** Parts will no longer be shipped to dealers at no charge by our customer service agents. Authorized Parts Distributors have the parts in stock and are able to respond in a timely manner to accommodate your needs.

**25cc short blocks are now available.**

Homelite now supplies 25cc and 30cc short blocks for non-clutch trimmers, clutch trimmer/brushcutters, and blowers. This allows you the opportunity to either furnish you customer with an original equipment short block or an engine upgrade if the unit is repaired outside of the warranty period. If a short block is used for a warranty repair, 25cc short blocks should be used for 25cc units and 30cc short blocks should be used for 30cc units.

New Prices are listed below:

Part Number	Short Block	Code	List Price
<b>A09057</b>	<b>25cc blower</b>	<b>H</b>	<b>\$ 55.00</b>
<b>A09056</b>	<b>25cc clutch trimmer</b>	<b>H</b>	<b>\$ 55.00</b>
<b>A09055</b>	<b>25cc non clutch trimmer</b>	<b>H</b>	<b>\$ 55.00</b>
A07166	25cc electric trimmer	H	\$ 59.00
A04988A	30cc blower	H	\$ 64.00
A07134	30cc non clutch trimmer	H	\$ 64.00
A07135	30cc clutch trimmer	H	\$ 64.00
A06262B	Pro-Series 30cc trimmer	H	\$ 79.00
A06263B	Pro-Series 30cc blower	H	\$ 79.00

Part Number	Cylinders	Code	List Price
A07145	25cc	B	\$ 19.33
A07167	25cc electric start	B	\$ 25.33
<b>A09058</b>	<b>30cc</b>	<b>B</b>	<b>\$ 29.33</b>
A07146A	Pro-Series 30cc	B	\$ 34.67

Part Number	Pistons	Code	List Price
A07314	25cc	B	\$ 17.33
A03599	30cc	B	\$ 24.00
A06291A	Pro-Series 30cc	B	\$ 28.00

Note: New parts are shown in **bold**.

Because of some last minute improvements on the above saws before production started, we were unable to make the changes that were needed in the parts list before it was mailed. There were also a few transposed part numbers, not picked up when the parts list was reviewed.

In this bulletin, we will give you the corrected part numbers to mark your current parts list # 16010, until a new replacement is printed.
