CHAIN SAWS

# NEW *Slim-Trim* HOMELITE CHAIN SAWS

The all-new professionally-powered Homelite C-9 Chain Saw is a perfect combination of rugged strength and sheer power, yet it weighs only 19 pounds (less bar and chain). The new streamlined design gives perfect balance for easy carrying and handling... cuts servicing time because working parts are readily accessible. The famous Homelite short-stroke engine built into a rugged die-cast unit stands up to the toughest jobs. Exclusive throttle lock located on handle makes starting easy. The C-9 is equipped with new Homelite "Perma-Hard" Tip Bar and new improved Oregon "Micro-Bit" Chain as standard equipment. Can be fitted with 14" to 30" bar and chain. Other advanced features are listed on the back page of this folder.

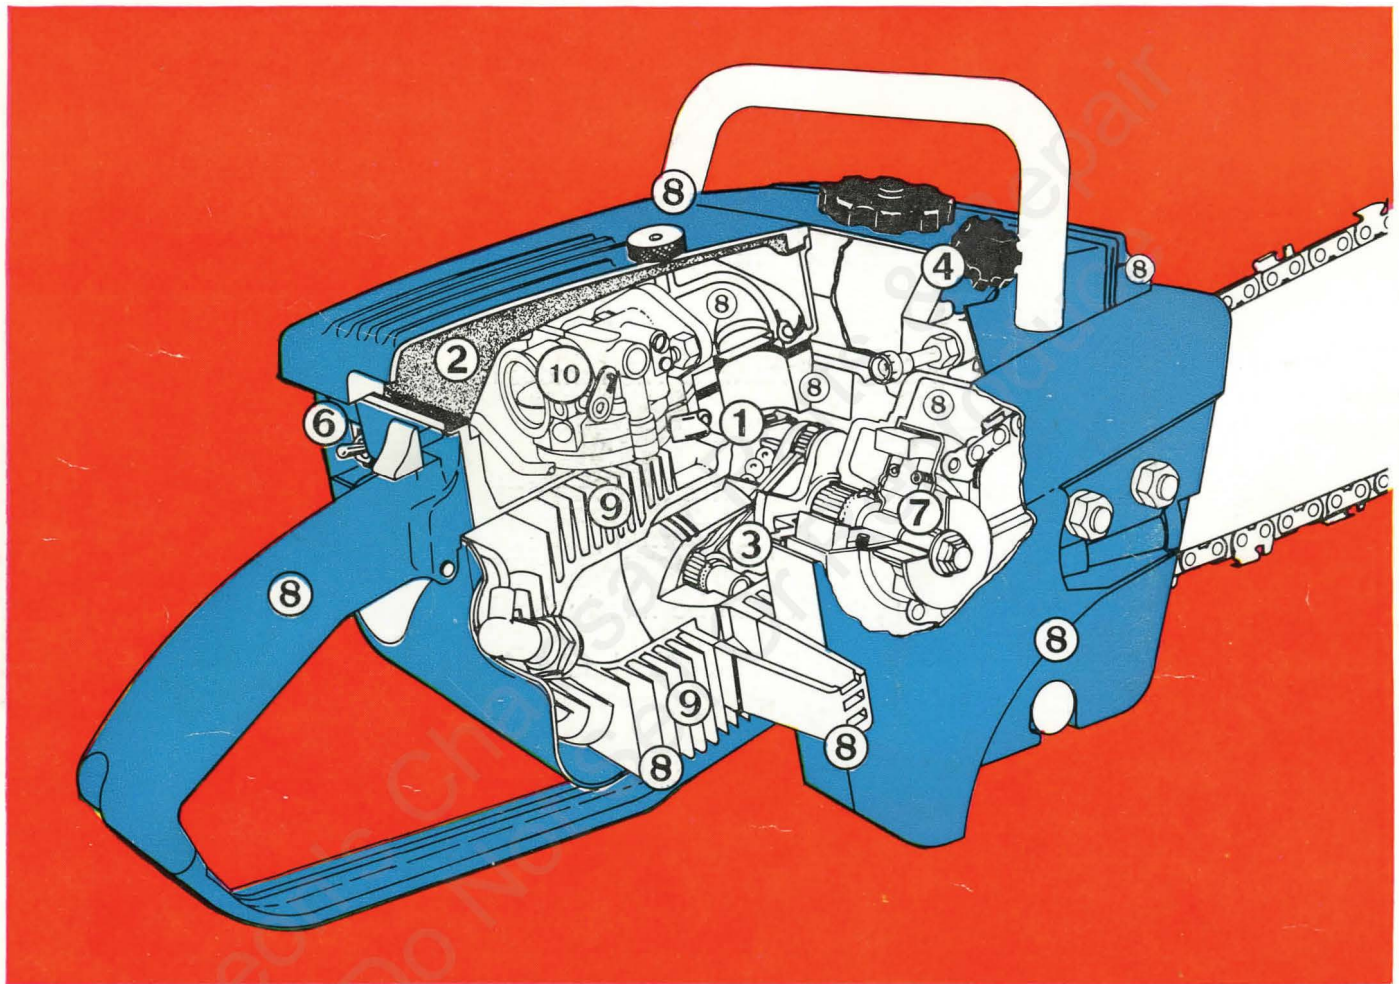

The all-new Homelite C-5 is the ideal chain saw for all-purpose cutting... clearing brush, pruning, cutting posts, cutting firewood, repairing storm damage, cutting silage and dozens of other jobs. Its new slim, trim design makes it easy to handle... you can cut for hours without tiring. Weighs only 18½ pounds (less bar and chain). The C-5 shares the advanced features of the C-9... the famous Homelite short-stroke engine, ease of servicing, fast starts in any weather and complete control with the new Butterfly Choke. Its standard equipment includes the new Homelite "Perma-Hard" Tip Bar and new improved Oregon "Micro-Bit" Chain. You'll like its vibration-free operation and the way it will both save and make money for you.

**NEW LOW PARTS PRICES** — another reason why Homelite is your best chain saw buy in '63.

# You're looking at a dozen good reasons why a Homelite Chain Saw is your Best Buy today!
