

World's first chain saw with solid state ignition — no breaker points!

ALL-NEW HOMELITE XL-850

A first in the chain saw industry . . . Homelite has produced a chain saw that eliminates adjustment, replacement and cleaning of ignition points. There aren't any! That means minimum maintenance!

This major new design gives you not only solid state ignition, but *double* the fuel and oil capacity at a weight of only 14½ pounds!* Think of cutting 15" hardwood in 10 seconds, 16" softwood

in only 8 seconds, felling trees up to 5' in diameter! You'll cut for longer periods of time without refueling! You'll also get increased cutting speeds, operating simplicity, ease of handling. The XL-850 has everything.

HOMELITE, 4508 Riverdale Avenue A textron DIVISION
Port Chester, New York

Get these additional advantages:

- Automatic chain oiling for longer chain, bar and sprocket life
- Flush-cut or wraparound handles
- 12" to 36" straight bars
- Plunge cut bows and clearing bar

*less bar and chain

See it today at your nearest Homelite dealer. He's in the Yellow Pages.
Try it and you'll buy one.

Homelite XLs are the fastest-selling chain saws in the world.
