

FASTER, EASIER, MORE PROFITABLE
WOODCUTTING WITH THE **NEW**

HOMELITE CHAIN SAWS

Homelite XL's
are the fastest
selling chain
saws in the
world.

NEW HOMELITE XL-AUTOMATIC

30% FASTER CUTTING
AUTOMATIC CHAIN OILING
35% GREATER FUEL CAPACITY

- ☐ **Fells trees up to 4 feet in diameter**
- ☐ **Zips through a 10" oak in 8 seconds**
(Cuts 18" softwood in 17 seconds,
18" hardwood in 24 seconds)
- ☐ **Weights only 14* pounds**

This is the light weight saw you've been waiting for! Packed with all the professional features that have made Homelite XL's the fastest selling chain saws in the world, the new direct drive XL-Automatic gives you automatic chain oiling plus 30% faster cutting plus 35% greater fuel capacity than the famous XL-12!

New pyramid reed valve gives the XL-Automatic extra power to fell trees up to 4 feet in diameter. Yet it weighs only 14* pounds!

The gear driven, positive-displacement automatic chain oiler—with 60% more oil capacity, and pressure up to 600 p.s.i.—completely eliminates manual chain oiling...greatly prolongs bar and chain life. Just fill the oil reservoir...the bar and chain are oiled properly, automatically, as you cut.

Full range of regular bars from 12" to 36", roller nose bars from 16" to 36", plus plunge-cut bows, clearing and utility bars.

New features make cutting easier than ever!

AUTOMATIC OILER has 60% larger reservoir...completely eliminates manual chain oiling and lets you cut longer before refilling. You get faster, easier cutting and longer chain life because oiling is automatically adjusted to cutting need.

NEW, BIGGER GAS TANK holds 35% more fuel. Extra capacity (indicated by dark red area in illustration) on the XL-Automatic and XL-660 Automatic lets professional loggers and pulpcutters cut more wood before refueling.

NEW HOMELITE XL-660 AUTOMATIC

**MORE POWERFUL BIG BROTHER
OF THE XL-AUTOMATIC**

- ☐ **Fells trees up to 5 feet in diameter**
- ☐ **Zips through a 10" oak in 6 seconds**
(Cuts 20" softwood in 18 seconds,
18" hardwood in 20 seconds)
- ☐ **Weights only 14* pounds**

Here's new high performance in a light weight chain saw: if you want the money-making professional features of Homelite's XL-Automatic—**PLUS EXTRA POWER**—the new XL-660 Automatic is for you! The most powerful saw in the XL series, the new 14 pound*, XL-660 Automatic combines all the features of the XL Automatic with even faster wood-cutting speed! Its greater engine displacement and pyramid reed valve give it the extra power to quickly bring

down trees up to 5 feet in diameter.

The new XL-660 Automatic direct drive chain saw is so light you can use it all day without tiring...so compact you can take it with you anywhere...so powerful it will do every cutting job for loggers, pulp-cutters, contractors, tree surgeons and farmers.

Available with regular bars from 12" to 36", roller nose bars from 16" to 36", plus plunge-cut bows, clearing and utility bars.

NEW HOMELITE XP-1000

**HOMELITE'S
FASTEST CUTTING CHAIN SAW**

- ☐ **Fells trees up to 6 feet in diameter**
(zips through a 10" oak in 4 seconds)
- ☐ **Cuts 19" softwood in 9 seconds,**
25" hardwood in 26 seconds
- ☐ **Weighs only 19½* pounds**

For top production cutting, you can't beat the new Homelite XP-1000 direct drive chain saw. Most powerful of all Homelite saws, the new XP-1000 has the power, the speed, the light weight—and the dependability—to handle the toughest day-after-day professional woodcutting.

Its large displacement Homelite engine gives the XP-1000 all the power you'll ever need for any woodcutting job! Short piston stroke and new vertical fins on head of cylinder cut heat and friction, increase engine life, reduce fuel consumption. New large counterbalanced crankshaft with larger crank pin, and new rugged connecting rod with large

wrist pin assures peak performance.

Choice of spike bumper plates plus flush-cut or wrap-around handlebar with special grip for comfortable non-slip control. Positive action manual chain oiler operates at the touch of a button. In addition, as an accessory: Special Homelite gear-drive, positive-displacement automatic chain oiler, with self-contained oil supply, provides a double oiling system—automatic and manual—for extra convenience, extra dependability.

Available with regular or roller nose bars from 17" to 60", plus plunge-cut bows, clearing and utility bars.

Take a look at the professional features packed into the new Homelite chain saws

Famous Homelite Short-Stroke Engine—has more power-per-pound. Short piston stroke cuts friction, increases engine life, reduces gas consumption.

All-position Diaphragm Carburettor—lets you cut with the saw in any position; up, down or upside down with no loss of power. Butterfly choke gives positive control of air mixture for instant starting in any weather.

Automatic Chain Oiler—gear driven, positive-displacement automatic chain oiler—with pressure up to 600 p.s.i.—completely eliminates manual chain oiling, greatly prolongs bar and chain life. Standard equipment on XL-Automatic and XL-660 Automatic. Optional extra on XP-1000 to provide double oiling system—both automatic and manual.

Husky Crankshaft—is mounted on case-hardened roller and ball bearings for long life, and counter-balanced to eliminate vibration and reduce operator fatigue.

Easy-to-Clean Air Filter—protects your engine. Located away from flying sawdust, it gives you lots of cutting time before it needs cleaning. Can be cleaned and replaced in less than a minute and re-used many times.

Pistol Grip and Guard—protect throttle from snagging, provide hold-down for easy starting.

“Hot Spark” Ignition—a weatherproof system with high voltage magneto and sturdy recoil starter gives you easy, instant starting in any weather, any climate.

Grouped Controls—ignition switch, choke and throttle can be operated by one hand in any position for fast, simple, safe control.

New Quiet Muffler—smothers noise, takes the “bark” out of exhaust.

Automatic Clutch and Safety Throttle—chain stops when throttle is released and engine idles. Lock holds throttle open for fast starting, releases at a touch. Throttle pressure is required to start chain. Automatic clutch prevents engine from stalling if chain binds.

Narrow Compact Design—is slim, trim and perfectly balanced for easy handling, easy cutting in any position. Safety chain guard throws chips and twigs down and out to protect operator and maintain cutting efficiency.

Flush Cut Handle—lets you cut level with the ground, leaves no unsightly stumps.

Rugged Construction—die-cast construction gets maximum strength from cast-in structural members, will stand up to the roughest day-after-day professional use.

CONSTRUCTION CLEARING moves faster because the XP-1000 and the XL-660 Automatic, have so much more power, are so easy to carry. New large displacement, short stroke engine helps provide the extra power needed in clearing timber for construction, roads or building fire lanes.

FARMERS make extra cash with the XL-Automatic, because even a few hours cutting on the wood pile turns trees into money. XL-Automatic makes cutting simpler and easier with such features as the automatic clutch which prevents engine stalling if chain binds in cut.

TREE SURGEONS AND UTILITY CREWS like the ease with which they can take the XL-660 Automatic right up into the trees for tree maintenance work. Gear driven, positive-displacement automatic chain oiler eliminates manual chain oiling, greatly prolongs bar and chain life.

PARK DEPARTMENTS AND HOMEOWNERS find the clearing and utility bar makes the XL-Automatic an efficient clearing tool, especially useful in cleaning up storm damage. You can fell, limb and cut damaged or diseased trees into easily-removed sections in just minutes.

**Faster, easier
cutting for
professional
or
part time
cutters**

PULPCUTTERS can make the XL-Automatic a fast-cutting production saw with the plunge-cut bow. Won't bind in any cut and eliminates bending and stooping while bucking. Straight bars from 12" to 36" to meet any cutting need in trees up to 4 feet in diameter.

ESTATE OWNERS can cut right down to the ground with the flush-cut handle on the XL-660 Automatic. Lets you landscape your grounds without leaving ugly stumps. This new Homelite is so powerful, so easy to handle you can cut in tight corners without effort.

FULL-OR-PART-TIME CUTTERS can clear out dead or diseased trees easily with the cutting speed of the XL-Automatic. At the camp, the XL-Automatic will cut firewood and rough lumber for shelters quickly.

PROFESSIONALS find they can cut more wood in less time with the new XL-Automatic. New, larger fuel tank holds 35% more fuel than comparable models. New muffler smother noise, and virtually eliminates spark hazard when cutting up dead timber.
